

Panorama Pro LED Fixture Recommended Configurations

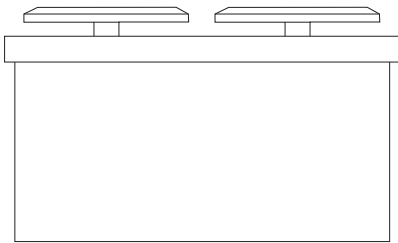

18" – 24" Aquariums

One, 18" Panorama Pro Fixture, Model 6010

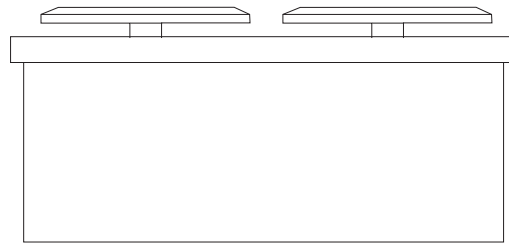

24" – 36" Aquariums

One, 24" Panorama Pro Fixture, Model 6040

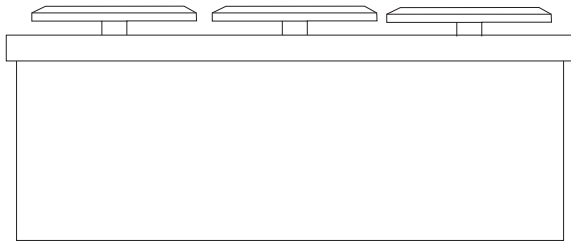

36" – 48" Aquariums

Two, 18" Panorama Pro Fixtures, Model 6010

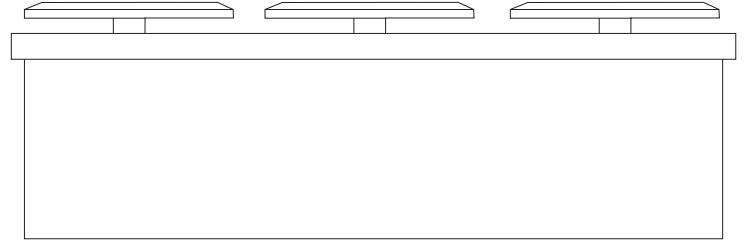

48" – 60" Aquariums

Two, 24" Panorama Pro Fixtures, Model 6040

60" – 72" Aquariums

Three, 18" Panorama Pro Fixtures, Model 6010

72"+ Aquariums

Three 24" Panorama Pro Fixtures, Model 6040

The above recommendations can be used on 24" wide aquariums with:

- Mixed reef, fish only or FOWLR aquariums up to 36" in depth
- SPS reef tanks up to 24" in depth

For deeper SPS coral reef aquariums, we recommend adding one additional Panorama Pro Module per fixture for every 4" of additional depth.

Please review our Coral Planning Map and Module Configuration guide for more sizing guidelines.
